Neutrino Properties: Cross Topic Parallel Session (14:30 - 17:00)

| time | [id] title | presenter |
|-------|---|----------------------|
| 14:30 | [22] Neutrino production in the sources of the UHECRs and the role of nuclear physics | FEYDNITCH, Anatoli |
| 14:55 | [23] Testing neutrino mass generation at the GeV scale: Experimental reach versus theoretical predictions | RASMUSSEN, Rasmus W. |
| 15:20 | [24] Testing neutrino properties with IceCube | |
| 15:45 | [25] Neutrinos in core-collapse supernova nucleosynthesis | SIEVERDING, Andre |
| 16:10 | [26] Testing neutrino properties with KATRIN: Status update | STEIDL, Markus |
| 16:35 | [27] Future activities of cross-topic "Neutrino properties" | ALL |
