

2022 International Workshop on

Polarized Sources, Targets, and Polarimetry

September 26 – 30, 2022
Mainz, Germany

Topics:

- Polarized Targets
- Polarized Sources
- Polarimetry
- Polarized Neutrons
- Polarization Applications for Fundamental Symmetry Tests
- New Applications

The Workshop on Polarized Sources, Targets, and Polarimetry has been a tradition for more than 20 years, moving between Europe, USA, and Asia. The 19th International Workshop on Polarized Sources, Targets, and Polarimetry (PSTP 2022) will take place at Mainz, Germany. The workshop addresses technical challenges and accomplishments related to polarized gas/solid targets, polarized electron/positron/ion/neutron sources, polarimetry, and applications of polarized techniques.
