

Workshop on Polarized Sources Targets and Polarimetry 2022 (PSTP22)

Monday, 26 September 2022

Polarization Applications for Fundamental Symmetry Tests (14:00 - 14:30)

-Conveners: Andro Kacharava

time	[id] title	presenter
14:00	[5] Hyperfine-spectroscopy measurement of metastable hydrogen atoms with a Sona-transition unit	Mr FAATZ, Nicolas

Wednesday, 28 September 2022

Polarization Applications for Fundamental Symmetry Tests (09:00 - 09:30)

-Conveners: Frank Rathmann

time	[id] title	presenter
09:00	[26] Detection of T-violation in ``elastic" pp scattering in a single beam figure-eight storage ring	Prof. TALMAN, Richard

Friday, 30 September 2022

Polarization Applications for Fundamental Symmetry Tests (09:00 - 09:30)

-Conveners: Frank Rathmann

time	[id] title	presenter
09:00	[33] The search for electric dipole moment of charged particles using storage rings	SHMAKOVA, Vera
