

Recent results of Baryon electromagnetic form factors at BESIII

Monday, 16 October 2023 16:50 (20 minutes)

The electromagnetic form factors (EMFFs) and the pair production cross sections of various baryons have been studied at BESIII, including the nucleon EMFFs and the hyperons. Anomalous enhancement behavior on the Lambda and Lambdac pair are observed. Besides, measurements on the SU(3) decuplet baryon have been performed, such as Omega and Delta, and will be presented.

Parallel Session

Low-Energy Nucleon Structure

Primary author: LIU, Beijiang (Institute of High Energy Physics)

Presenter: XIA, Lei (University of Science and Technology of China)

Session Classification: Low Energy Nucleon Structure
