Contribution ID: 102

Type: **not specified**

Exotics in EFT

Friday, 20 October 2023 10:00 (30 minutes)

This talk will be focused on near-threshold exotic hadrons in the hidden-charm and double-charm sectors. For such systems, the separation of scales allows one to construct EFT as a framework to analyze both experimental and lattice QCD data. Insights into the structure of exotic states can be obtained.

Parallel Session

Invited Plenary Talk

Primary author: GUO, Feng-Kun (Institute of Theoretical Physics, CAS)

Presenter: GUO, Feng-Kun (Institute of Theoretical Physics, CAS)

Session Classification: Plenary talk
